COLERICK, EDWARD FENWICK
(1822-1905)

Edward Fenwick Colerick was born at Mount Vernon, Ohio, in 1822, the son of Mr. and Mrs. Charles Colerick. He was brought to Fort Wayne, Indiana, as a child, in 1828, when his family settled there. He was educated privately and read law, becoming a practicing attorney. In 1851 he married Margaret Forsyth. Three children were born to this union: Eliza, who married Thomas Hanna; Margaret, who became Librarian of the Fort Wayne Public Library and held that position from 1898 to 1934; and Charles. The only surviving descendant now is a granddaughter, Miss Margaret Hanna, of Fort Wayne.

Mr. Colerick moved to Indianapolis in 1875, and remained a resident of that city until his death in 1905. He was the author of Adventures of Pioneer Children, 1888. He was also the author of a great number of newspaper and magazine articles, and spent most of his life in reading, study, and writing.

IC Colerick, E. Fenwick
973 Adventures of Pioneer Children, or, Life in the Wilderness.
C677a Cincinnati, R. Clarke & Company, 1888.

Active in church, school and civic groups.

Publication:

Clay in Sand. Pageant Press, 1953.

The book is concerned with the problems confronting a
"Mixed" marriage in a community where members of one faith
refuse to accept socially one of another creed.

Hamilton, Dr. Alice (1869-1970)

February 27, 1869-September 22, 1970

Born in New York City but family moved to Fort Wayne a few months later. Her parents, Mr. and Mrs. Montgomery Hamilton, as well as her grandparents were prominent Fort Wayne citizens. The Hamilton children were taught by private tutors in their home and were well versed in the classics, Greek and Latin before entering prep school and universities.

Edith Hamilton, her sister, was a classicist scholar, Margaret served as headmistress of Bryn Mawr School, Norah was an artist, and Allen was professor at University of Illinois.

Alice Hamilton left home to attend Miss Porter's School in Connecticut and went on to the University of Michigan where she received her M.C. Degree in 1893. She studied further at Leipzig, Munich and John Hopkins University.

In Chicago she lived and worked at Hull House with Jane Addams. Here she came to know the men, women and children who worked in crowded, unsafe sweat shops and she realized that the industrialization of America was exacting a great toll in human life.

From that time on Dr. Hamilton devoted her life to studying the causes of industrial disease and working to eradicate them. Her accomplishments and interests were almost too numerous to list.

In 1910 the Governor of Illinois appointed her to a state commission to investigate occupational diseases. From 1911-1940 she served as an unsalaried consultant for the U. S. Department of Labor to investigate labor conditions throughout the Nation.

In 1919 Harvard University honored her by appointing her assistant professor of industrial medicine and the first woman to join the faculty. She continued to teach until 1935 when she became professor Emeritus.

On her 90th birthday, Harvard University announced the establishment of the Alice Hamilton Fund for Occupational Medicine within the school of public health.

Dr. Hamilton was vitally interested in social causes. She was co-founder of the Women's International League for Peace and Freedom. In 1947 The American Public Health Association presented her the Lasker Award "in recognition of her great services in protecting the health of workers. No one has done more in this field."

Publications:

Exploring the Dangerous Trades; the autobiography of Alice Hamilton, M.D. Boston, Little, Brown & Co., 1943.

Industrial Poisons in the United States. New York, Macmillan, 1925.

Industrial Toxicology. Co-authored with Harriet L. Hardy, New York, P. B. Hoeber, 1949.

Hamilton, Edith (1867-1963)

1867-1963

Born in Dresden, Germany but grew up in Fort Wayne, Indiana in the Hamilton homestead at Clinton and Lewis Street. In speaking of her childhood, Miss Hamilton said her father was wealthy and primarily interested in educating his young family. The Hamilton children were taught by tutors at home and at the age of seven Edith Hamilton was studying Latin. Later she was sent east to Miss Porter's School in Farmington, Connecticut and then to Bryn Mawr College where she earned the B.A. and M.A. degrees in Latin and Greek in 1894.

In 1895 she went to Germany to study at the universities of Leipzig and Munich and was the first woman student admitted to the University of Munich. She often referred to her experiences there commenting on how difficult it was for the professors to accept a woman in their classes.

In 1896 Miss Hamilton founded Bryn Mawr School in Baltimore and served as headmistress for twenty years.

Her first book was written in 1930 when she was 63 years old, and then only because friends persuaded her to publish The Greek Way. Since then she has written many books dealing with Greece and Rome and classical subjects. The Ever-Present Past was published posthumously and is a collection of essays on various subjects.

Many tributes have been paid to Dr. Hamilton. In 1957 she was a guest of the Greek government attending the performance of her English translation of "Prometheus Bound", and at that time was made honorary citizen of Athens.

In the Name of the King, the Minister of Education decorated her with the Golden Cross of the order of Benefaction. Dr Hamilton spoke to the people assembled declaring "This is the proudest moment of my life."

In 1958 she received the Constance Lindsay Skinner Award given annually by the Women's National Book Association.

In 1950 she received the National Achievement Award. She was a member of P.E.N., the American Academy of Arts and Letters and the National Institute of Arts and Letters.

She was granted honorary D. Litt. degrees from Yale University, The University of Pennsylvania, and the University of Rochester.

Dr. Hamilton is listed in Twentieth Century Authors,
Who's Who of American Women, 1958-1959.

Current Biography. 1963.

Encyclopedia Americana. 1969.

Hartman, Lee Foster (1879-1941)

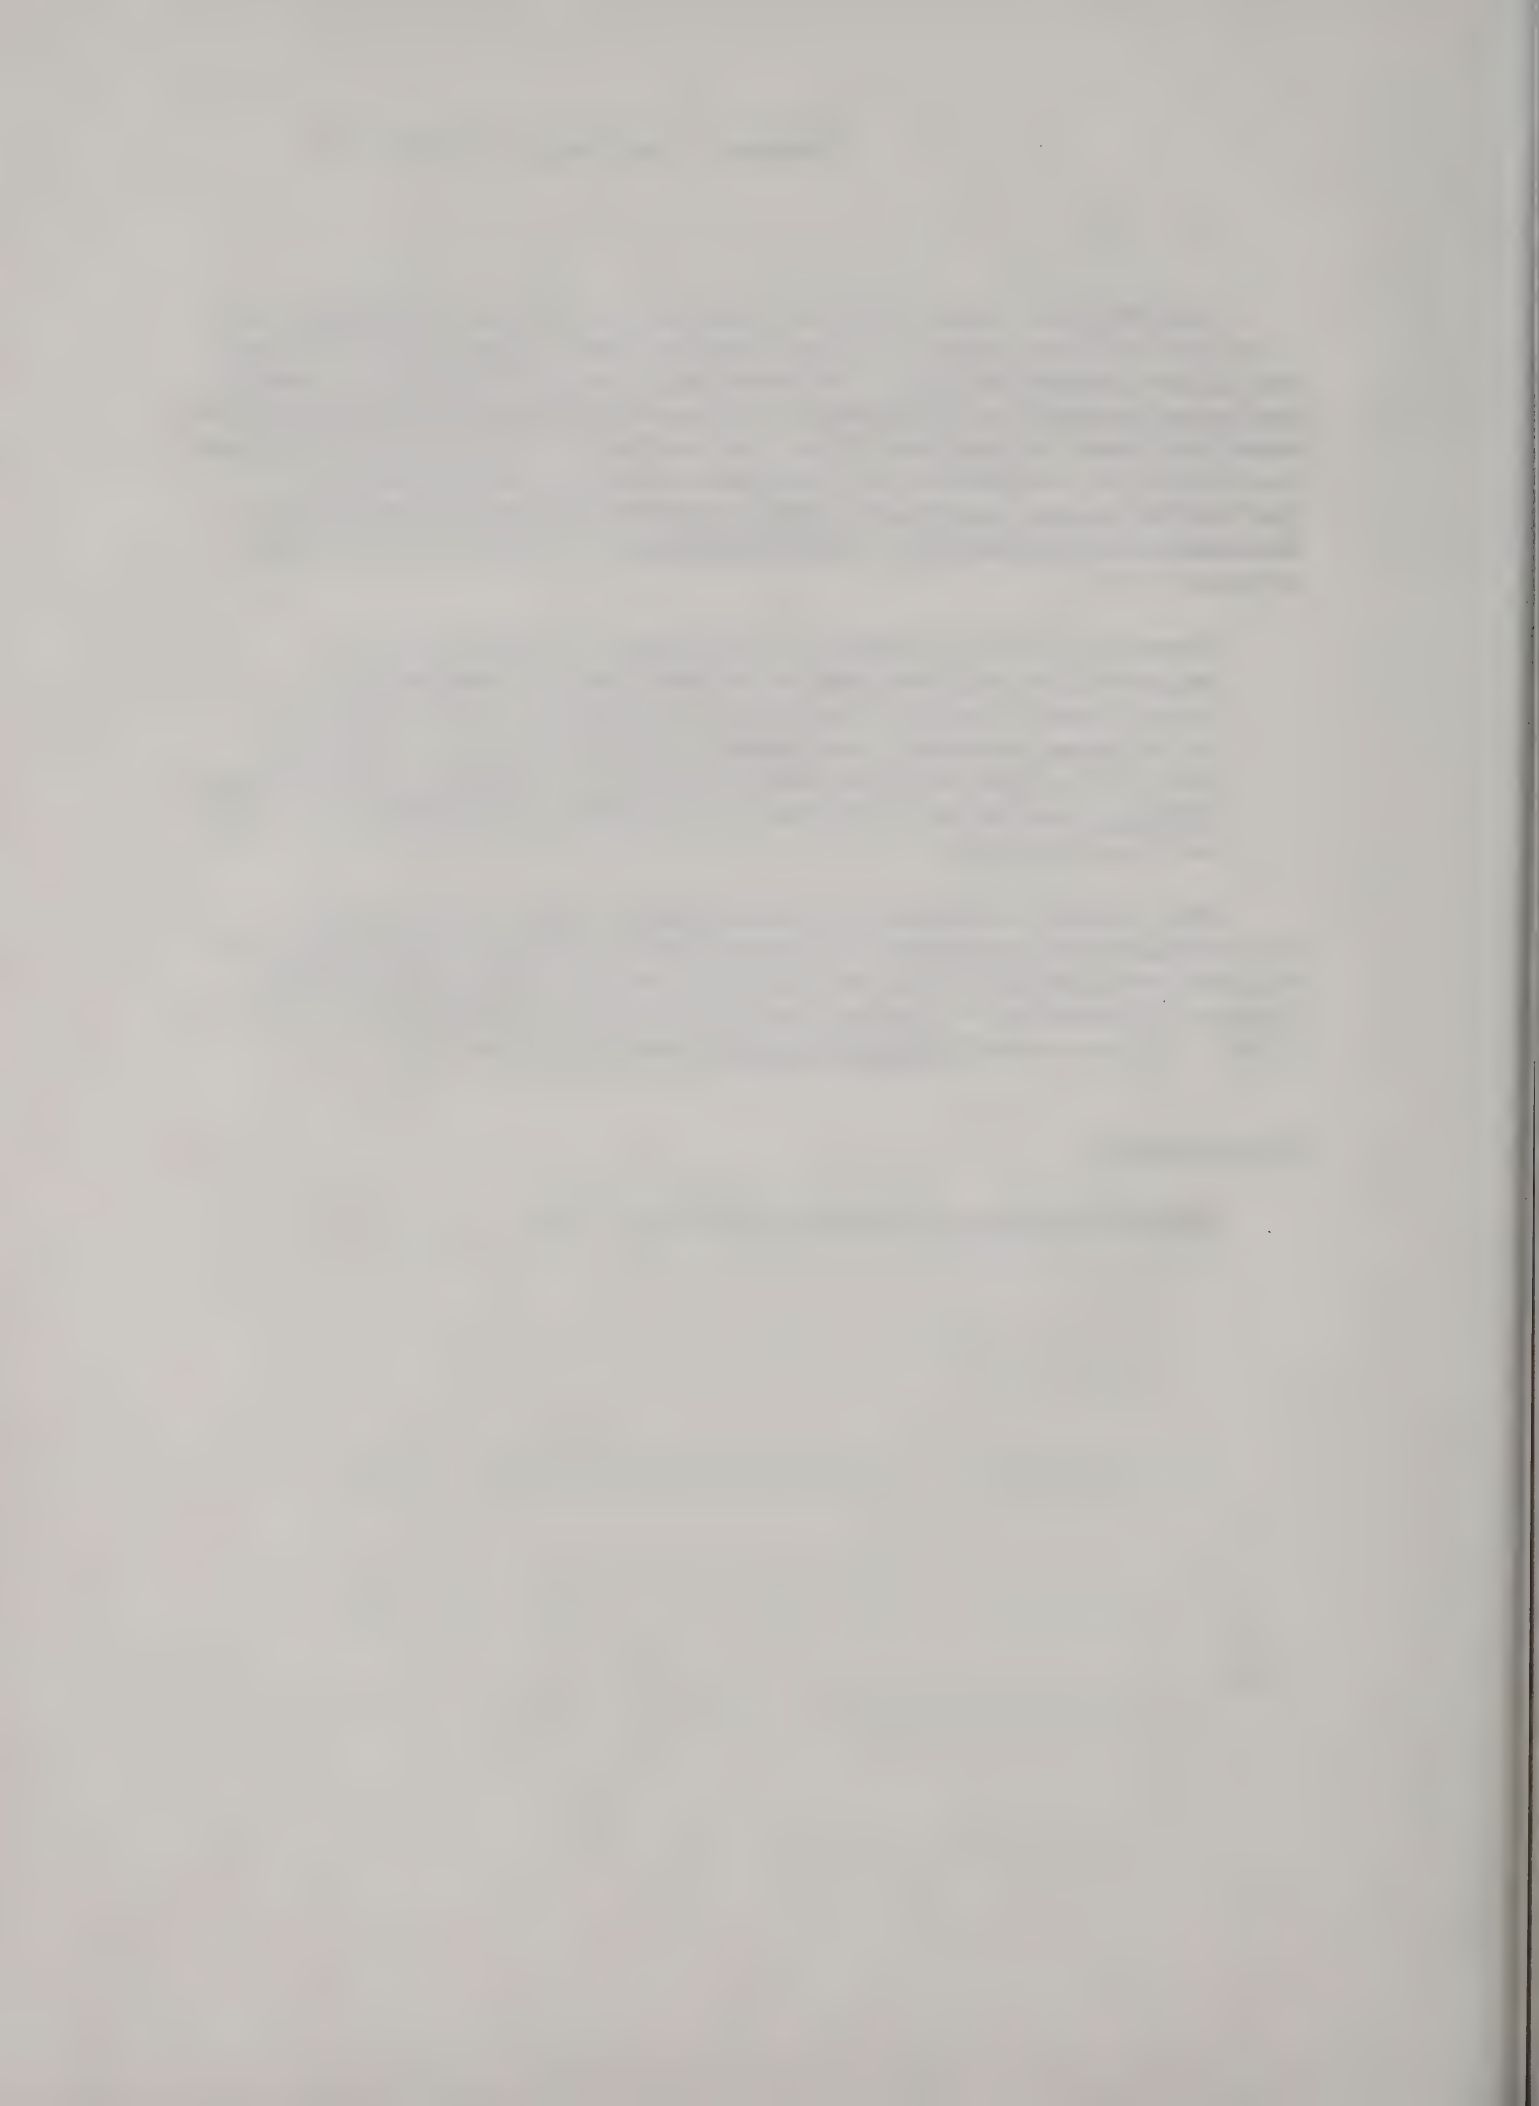

Lee Hartman, former Editor-in-Chief of Harper's Magazine was a native of Fort Wayne. He was born in Fort Wayne, son of Lemuel and Eliza Harter Hartman. He received his A.B. and M.A. degree from Wesleyan University, Middletown, Connecticut and from that time on, made his home in New York City. He worked for the New York Journal, the editorial department of the Associated Sunday Magazines. In 1908 he became assistant editor of Harper's Magazine, in 1917 Associate editor and 1931 Editor-in-Chief. Bernard DeVote said of him:

"Serving in the republic of letters the traditions he believed in and the ends he valued, he was content to sink himself in the institution he shaped. In shaping it, in helping to shape the thought of his time, he helped to shape the time and the commonwealth". (Tribute to Lee Foster Hartman published by Harper and Brothers Publishers, New York and London 1941)

Mr. Hartman was also an accomplished short story writer. Two of his stories won the O'Henry Memorial Award, "Judgement of Vulcan" originally published by Harpers in 1920 and "Mr. Smith" first published by "Liberty" under title of "Two Minutes to Live", 1928. His one novel, White Sapphire was published in 1914.

Publication:

White Sapphire. Harpers, New York, 1914.

Mahurin, Walker M. (Bud)
(1918-)

Celebrated Fort Wayne hero of World War II and the Korean War. Began his career as P-47 Thunderbolt Pilot. Mahurin shot down 21 planes in the European theatre, one in the Pacific, and three and one half kills in Korea. He was shot down over Korea May 13, 1952 and imprisoned by the Communists for 16 months, then released in the Prisoner Exchange at Panmunjom September 6, 1953. Prior to his release Mahurin was forced to sign a confession admitting that the United States engaged in bacterial warfare. He later denied the statement and described the persuasion methods to which he had been subjected.

Mahurin's book Honest John, is an autobiography dealing with his war time experiences and brain washing by the Chinese Communists.

He rose to the rank of Colonel before resigning to work for North American Aviation Corporation in Downey, California; having trained for aeronautical engineering at Purdue University.

Mahurin is married to Patricia Sweet also of Fort Wayne.

Silver Wings, True Action Stories of the United States Air Force by E. L. Wilber and E. R. Schoenholtz (New York, Appleton-Century Company, 1948) contains a story about Mahurin.

Publication:

Honest John. New York, Putnam, 1962.

Nutting, William Washburn
(1884-1924)

William Nutting journalist, illustrator, editor, mechanical engineer, and yachtsman grew up in Fort Wayne and graduated from Fort Wayne High School in 1902. In 1924 at the height of his career, he and his three sailing companions disappeared at sea off the coast of Greenland during a storm which had swept down from the polar ice cap. Earlier in 1920, Nutting and his crew survived a brush with death while sailing the Typhoon across the Atlantic. He later wrote and published the story of this voyage in The Track of The Typhoon.

Nutting was editor of "Motor Boat Magazine" when he left to go overseas as a Foreign Correspondent in World War I. He is credited with having introduced the first portable typewriter to Russia, and was rewarded for this by arrest and internment until he succeeded in proving that the typewriter was not spy equipment. Nutting's articles from Europe were published in newspapers and periodicals throughout the United States. He was later commissioned lieutenant in the Naval Reserve and instructed the Merchant Marine in the use of anti-submarine devices. His book, The Cinderellas of the Fleet is a story of the famous submarine chasers.

He published articles in Scientific American and Motor Boat Magazine.

Publications:

Developed by Dr. Graham Bell's laboratories in the Bras d'Or
Lakes. Smithsonian Institution Annual Report, 1919,
Washington.

The Cinderellas of the Fleet, with stories and photographs
by Walter P. Grossman, Herbert L. Stone, Joseph L. Day
and others. Frontispiece by John Olaf Todhal. The Standard
Motor Construction Company, 1920.

The Track of the "Typhoon". with illustrations from photographs.
New York, The Motor Boat Publishing Company, 1922. Memorial
edition with an appreciation by Gerald Taylor White, New York,
Motor Boat Publishing Company, 1930.

The first part of the paper deals with the general principles of the method of the present investigation. It is shown that the method is based on the assumption that the human body is a system of forces, and that the forces are distributed in such a way as to maintain the body in equilibrium. The method is then applied to the study of the human body in various positions, and the results are compared with the results of other investigations. It is found that the method is very accurate, and that it can be used to study the human body in a variety of positions.

The second part of the paper deals with the study of the human body in various positions. It is shown that the human body is a system of forces, and that the forces are distributed in such a way as to maintain the body in equilibrium. The method is then applied to the study of the human body in various positions, and the results are compared with the results of other investigations. It is found that the method is very accurate, and that it can be used to study the human body in a variety of positions.

Parry, Jessie (1884-1971)

Long time resident of Fort Wayne and former teacher at Washington Elementary School, Fort Wayne. Miss Parry planned her book for second and third graders. It is illustrated by Esther Feustel.

Publication:

Deaths

Miss Parry Dies; Taught, Wrote Book

Miss Jessie T. Parry, 85, 2209 St. Joe Center Rd., a teacher in Fort Wayne Community Schools before retiring in 1950, died at 10:15 p.m. Thursday in Parkview Memorial Hospital. She was a patient four days.

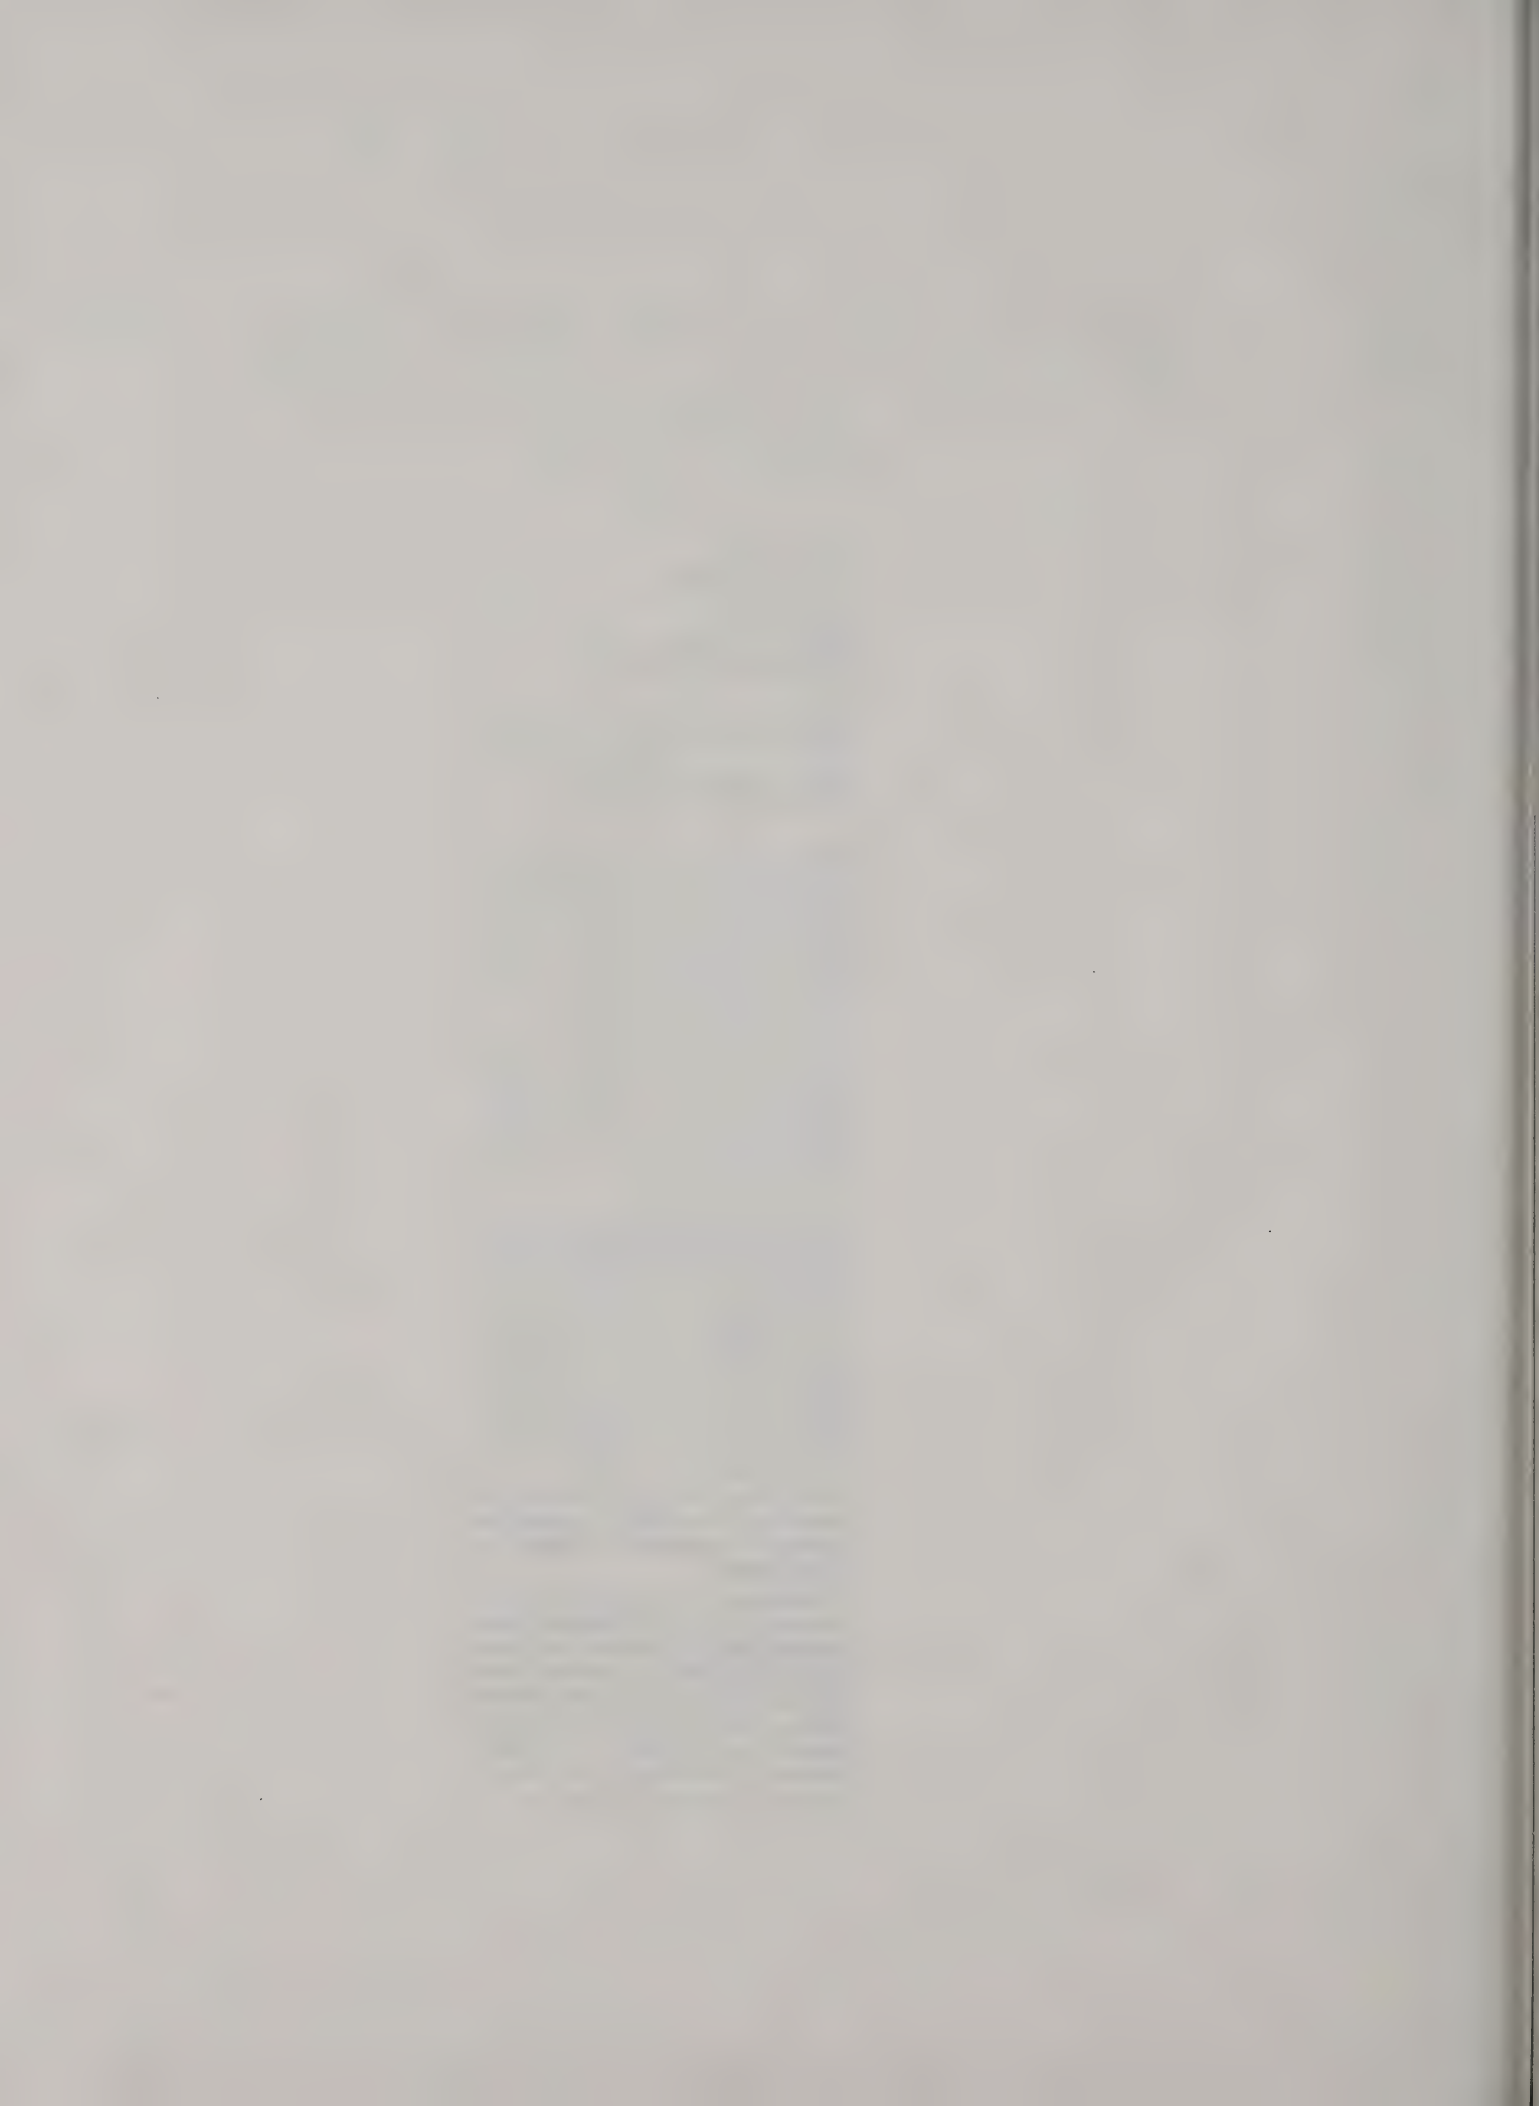

Miss Parry, a lifelong resident of Allen County, was a graduate of old Fort Wayne High School, the former Lakeside Normal School, and a training course in education at Columbia University.

She was a member of Plymouth Congregational Church, its Plymouth Circle and Delta Kappa Gamma Teaching Society.

She taught at the Washington and Jefferson schools. She authored a number of articles published in periodicals and was co-author of a book "Hunt & Find" which was used in elementary schools for many years.

Surviving are a brother, Arthur W. Parry, Fort Wayne, and a nephew, Arthur W. Parry Jr., Fort Wayne.

Services will be at 11 a.m. Monday in the Chalfant-Perry-Klaehn Funeral Home, Dr. Lawrence Fairchild officiating. Burial will be in Lindenwood Cemetery. Friends may call at the funeral home from 2 to 5 p.m. Sunday. Preferred memorials are gifts to the YWCA.

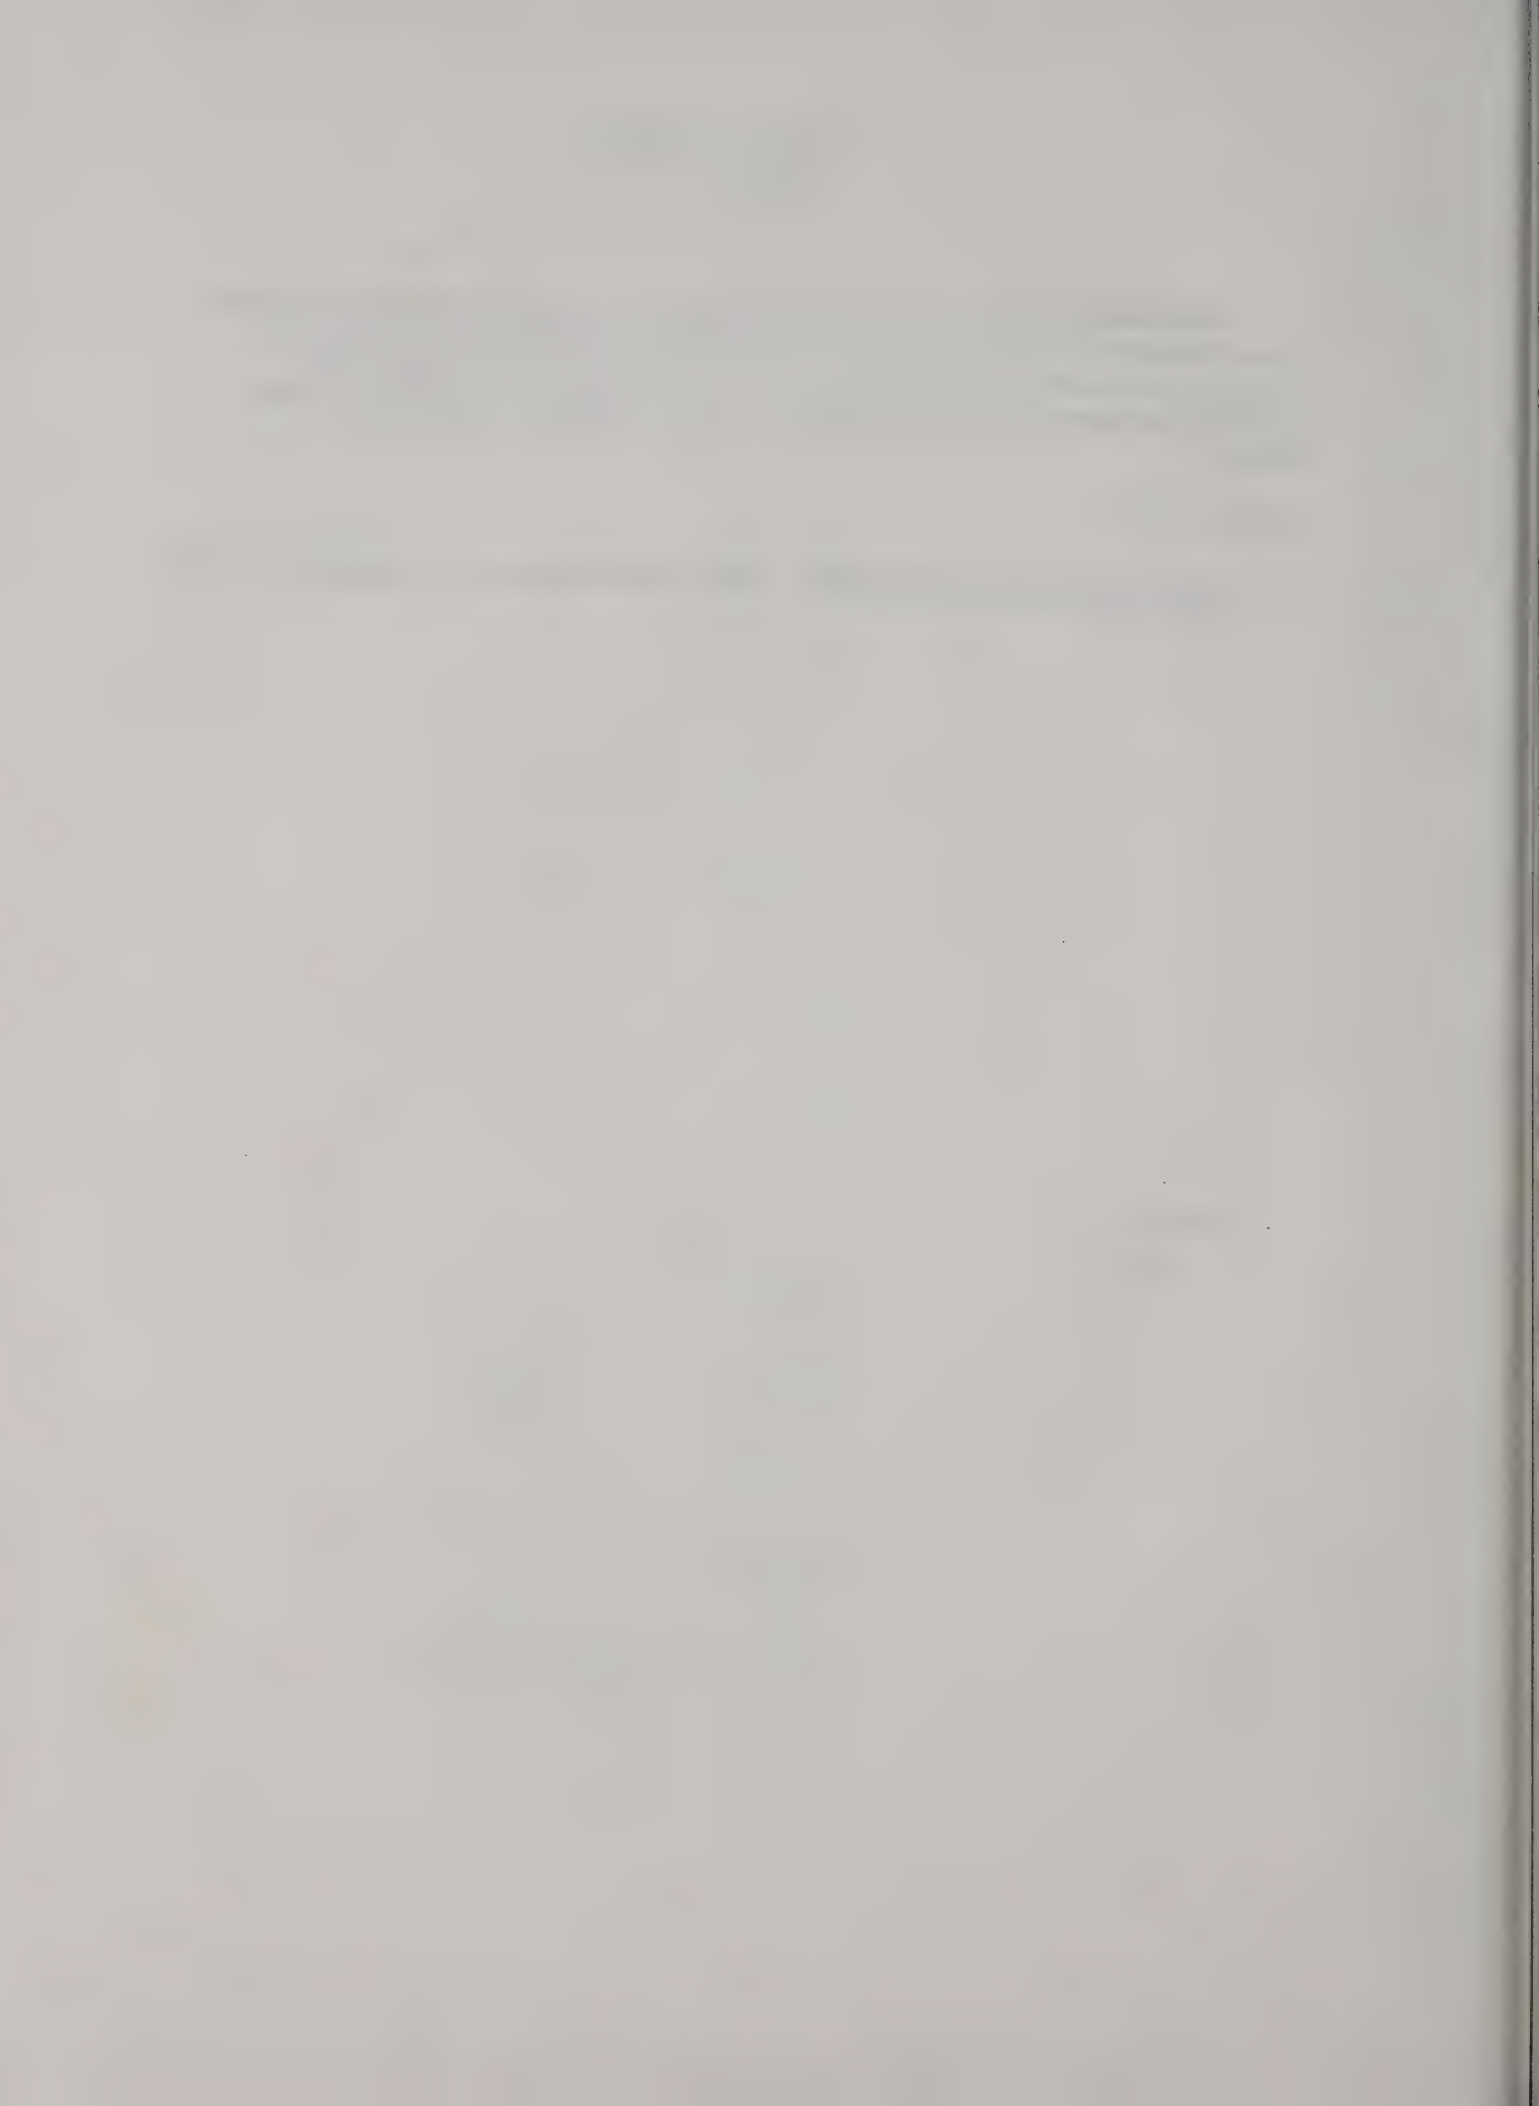

Pribble, Wayne I.

(1915-)

Resident of Fort Wayne. Plastics engineer employed by General Electric when his book was published by the American Technical Society of Chicago, Illinois. It was written as a text book on Mold Design and co-authored by J. H. Dubois formerly of Fort Wayne.

Publication:

Plastic Mold Engineering. 1946, The American Technical Society, Chicago.

Rabson, Dr. Salem Milton (1901-)

In 1944 joined the staff of St. Josephs Hospital, Fort Wayne as director of the laboratory and member of faculty of the Nurses' Training School of St. Joseph's Hospital.

Graduate of Bellevue Hospital Medical College, New York University 1926. Also studied in Vienna, Austria and was associated with New York Skin and Cancer Hospital.

Publication:

Internal Medicine in Old Age. Written jointly with Denham A. Muller. Published by Williams and Wilkins, Baltimore, 1942.

Roberts, Bessie K. (1886-1964)

Born in Auburn, Indiana. Moved to Fort Wayne at age of seven. Graduate of Fort Wayne High School, and Indiana University. Did graduate work at Columbia University and the University of Chicago. Taught school then later became a reporter and feature writer on the Evansville Courier, society editor and feature writer of the Fort Wayne Journal Gazette.

In 1919 she married Frank Roberts currently editor of the Fort Wayne Journal Gazette.

Honors:

Award of Merit by American Association for State and Local History, 1962.

Editor of "Lincoln Lore"

Webb, Marion Agnes (1883-1972)

Miss Webb has devoted her life to introducing children to the adventuresome world of books. A native of Fort Wayne, and graduate of Fort Wayne High and Norman School. Miss Webb joined the staff of the Fort Wayne Library in 1910. She completed her studies at the Pratt Institute of Library Science in Brooklyn New York Specializing in children's work. In 1950 Miss Webb retired as head of the Children's Department of the Fort Wayne-Allen County Public Library having endeared herself to the thousands of children, who had grown into and out of the Children's Room. However, she has continued to compile a monthly list of recently published book for children. The Marion A. Webb Room at the new Fort Wayne & Allen County Library is, of course, the Children's room.

Publication:

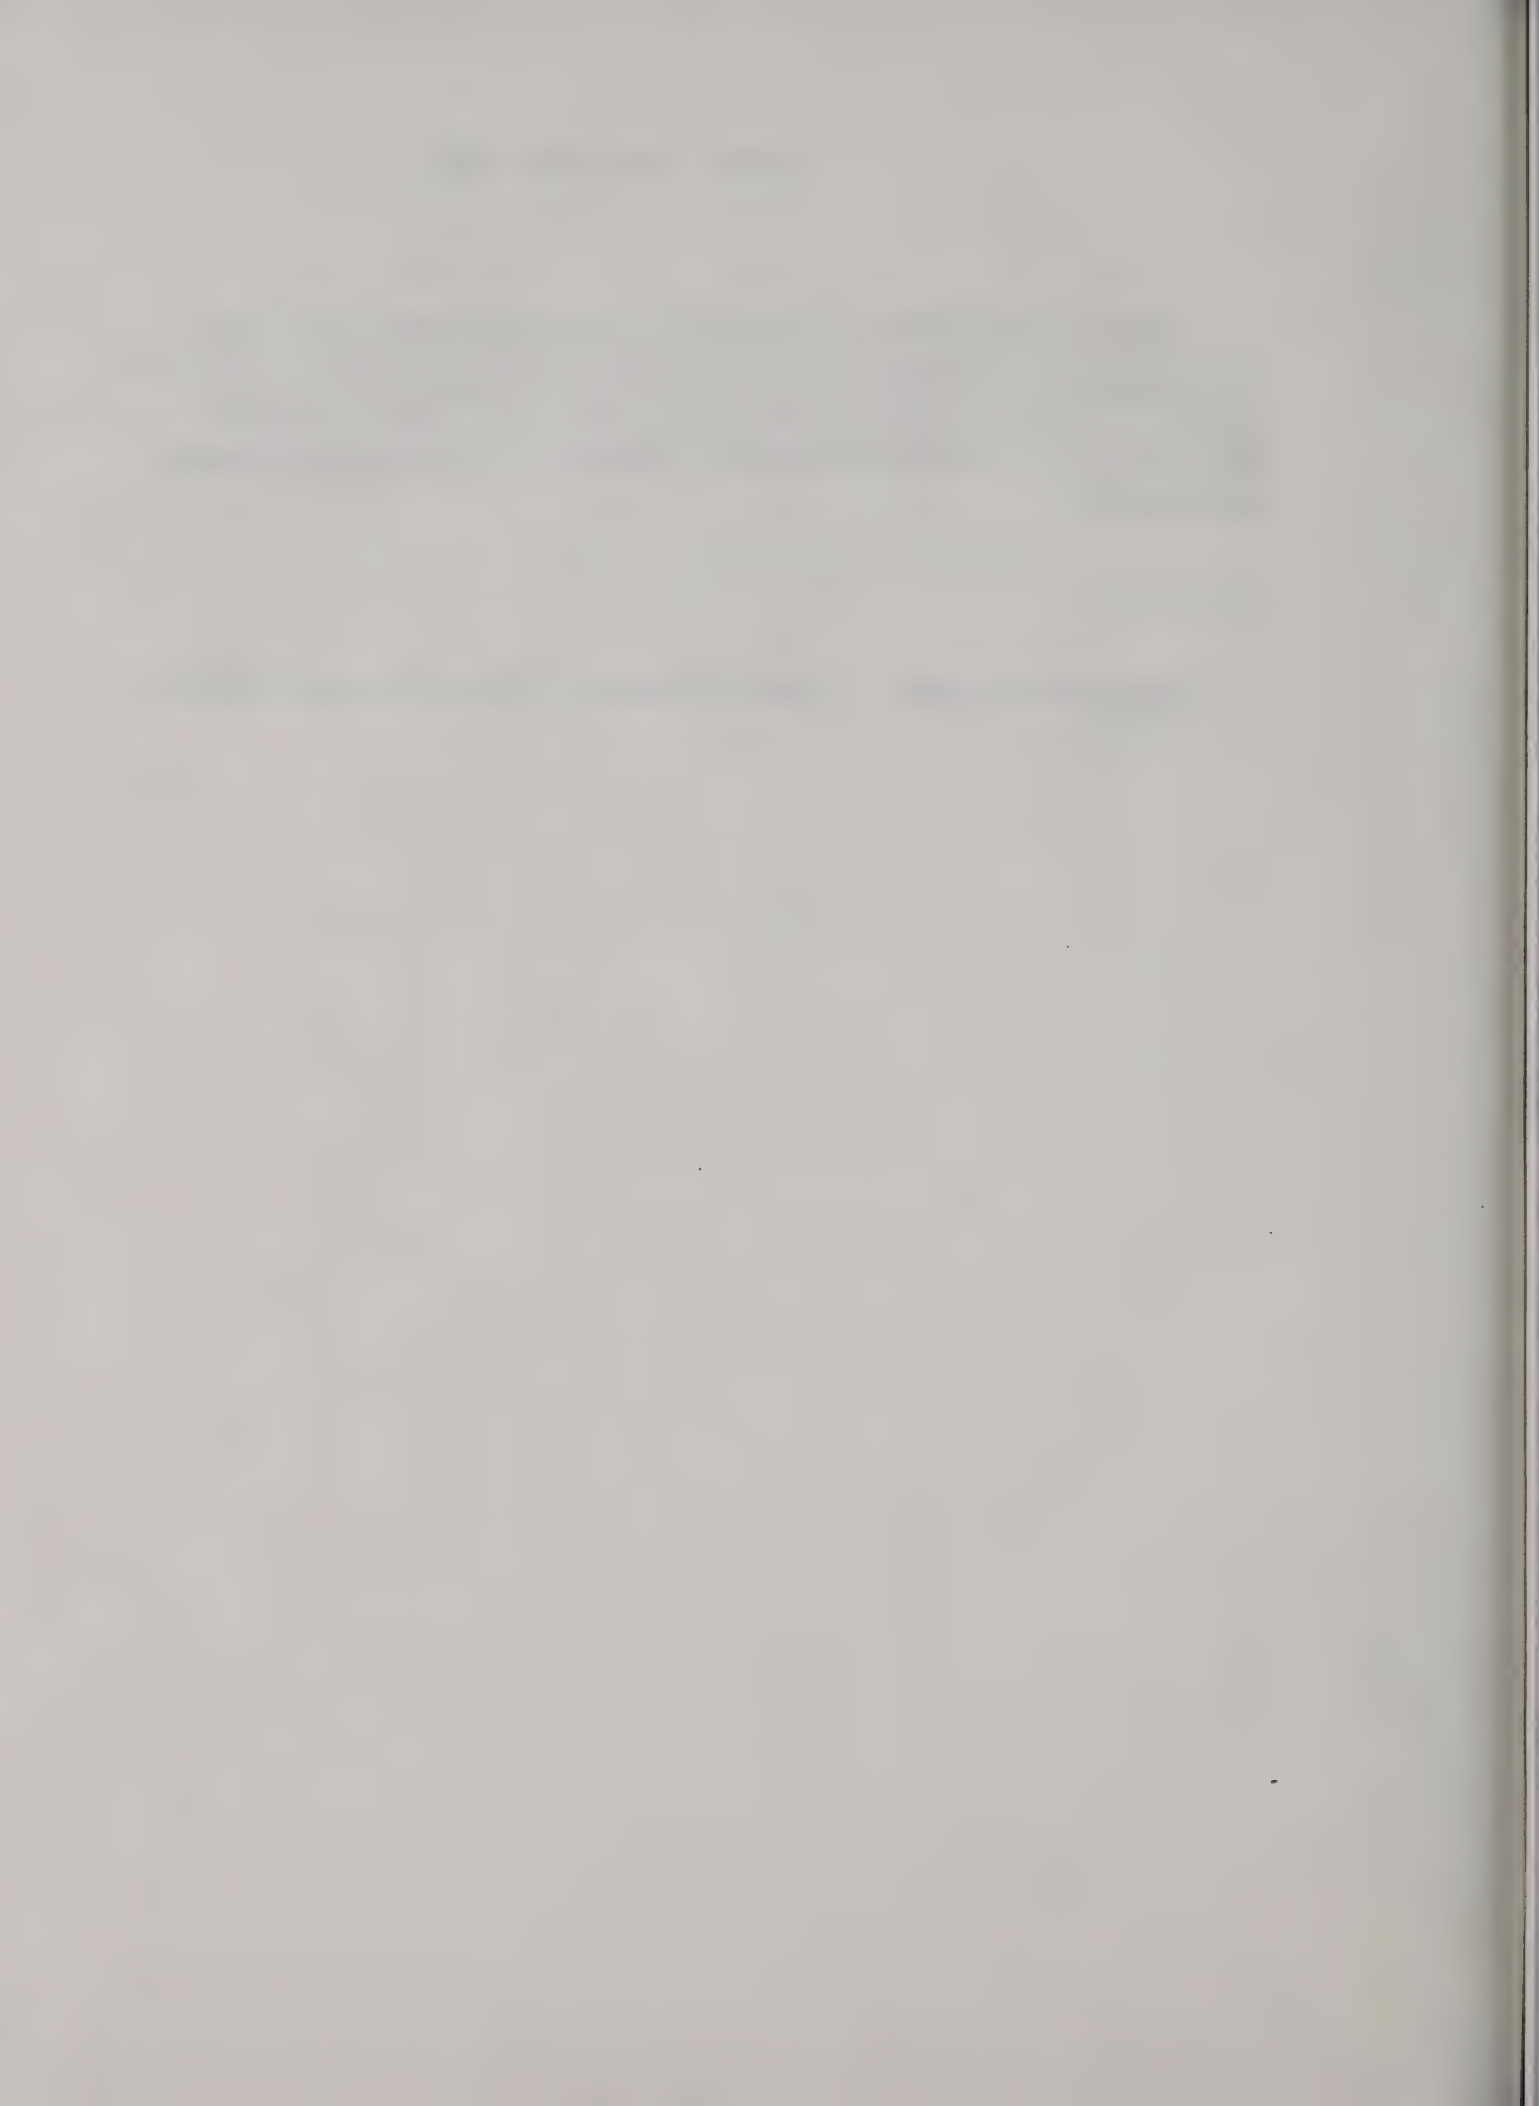

Games for Younger Children. New York, 1947, Morrow Junior Books.

Wetty, Joel Carl (1901-)

Born in Fort Wayne. Graduate of Earlham College, 1924, M.A. 1925 from Haverford and Ph. D. 1932 University of Chicago. Chairman of Department of Biology of Beloit College. Served as president of the Wisconsin Academy of Sciences, Arts and Letters 1961-62. Has written or revised biological articles in the American Educator Encyclopedia.

Publication:

The Life of Birds. illus. by Norman Tolson, Saunders, Toronto, 1962.

Whitten, Dr. Kathryn M. (1882-1951)

Practiced medicine in Fort Wayne from 1918 to 1946 when she retired and moved to California.

In 1942 she published her novel The Horses of the Sun.

Dr. Whitten is a native of upper New York state. She attended normal school at Plattsburg, New York and then completed nurses training at Hawthorn Hospital, Boston, Massachusetts. Although she became superintendent of nurses her real aim was to study medicine. She entered New York Polyclinic Medical School and later Valparaiso University to finish her college credits. The degree of Doctor of Medicine was completed at Loyola University, Chicago in 1918 and then Dr. Whitten began her practice in Fort Wayne.

Dr. Whitten has been credited with starting the movement to commission women doctors in the medical corps of the nation's armed forces. In 1942 she conducted a nation-wide poll of outstanding persons in all professions and appeared before the Congressional Board of Inquiry prior to passage of the law.

Dr. Whitten traveled a great deal. She spoke French fluently and is listed in Who's Who in the Western Hemisphere.

Her novel, The Horses of the Sun, is the story of a woman doctor trying to break down the prejudice against her sex and profession. The title is from Phaethon, son of Apollo, who drove the chariot of the sun.

Dr. Whitten was killed in an automobile accident in Los Angeles, California May of 1951. Her will provided for the Trust Fund of \$200,000 for select young persons who have demonstrated their ability for higher learning.

Publications:

The Horses of the Sun. Meador Press, Boston, Massachusetts. 1942.

Mrs. Joan Truitt Winner Of AAUW Writing Contest

Joan Truitt (Mrs. Mmburn) won the American Association of University Women, Fort Wayne Branch, 1966 Short Story competition.

Mrs. Raymon Harmon, made the announcement today at the annual Christmas party.

Mrs. Truitt's story, "The Splendid Shilling" is her first venture in short story. She has published poetry and received the AAUW Prize for Poetry in 1961.

Mrs. Truitt, assistant director at the Fort Wayne Historical Museum, won the 1965 award in the Poet's Club of Chicago annual sonnet contest and the first award in the 1966 Bethlehem Lutheran Church "art for Religion" Exhibit, poetry category, in Indianapolis.

Mrs. Truitt attended the Indiana University Writer's Conference in 1965 and 1966 and received an honorable mention for excerpts from novel-in-progress."

Joan Truitt

Mrs. Truitt and her husband are active in various groups at the First Presbyterian Church, including the drama group and teaching the class for mentally retarded children.

Fort Wayne Woman Combines Hobby, Job

By KATHERINE ORRILLY
Staff Writer

Mrs. Milburn (Joan) Truitt is one Fort Wayne woman who finds it hard to distinguish where her hobbies end and her career begins.

As assistant to Richard Haupt, curator of the Historical Society Museum at the old Swinney homestead, she holds two official titles. She is the registrar, cataloguing all new acquisitions of the museum; and she is the preparator, creating and preparing displays that illustrate interesting sidelights of Allen County's history.

To this work she brings a background of interests in painting, sewing, fabrics, antiques and history. (As a "sideline" she writes poetry, and last year won the AAUW Fine Arts Award.)

Although she had done volunteer work with puppets at the Detroit Institute of Arts before moving here from her native city, this is her first venture into professional museum work. Her husband, on the sales force of Kinney, Bennett, Kinsey, Inc., was transferred here six years ago from Detroit. Mrs. Truitt soon found herself in an antique hobby group with Fort Wayne women of similar interests. Through this club she heard of a job opening at the Historical Museum.

She calls her personal antique collection "a motly assortment," but adds that china is her main interest. "However, I only collect dishes that are usable, I'm a great believer in antiques that still have some practical use."

Joan Truitt now has worked three years at the Historical Museum. "One of the wonderful things about this job is that no two days ever are alike," she comments. She is enthusiastic about Mr. Haupt's approach

to historical displays. They both believe firmly that a museum should not just display "things," regardless of how old and interesting they are. "We believe that the museum should suggest other times, other people, and how they lived in Allen County in the past. We want to show the contrast between then and now, as well as the similarities."

Displays are constantly changing at the Museum, but each grouping is designed to tell a story, Mrs. Truitt adds. In addition to the "treasures" stored at the museum, she has been able to build interesting displays through ideas and objects brought in by museum visitors.

For example, somebody donated an old theatre program, for a Sara Bernhardt performance in Fort Wayne. It was interesting but was filed away for use in a proper setting. Next somebody else offered a pair of antique opera glasses, which made Mrs. Truitt think of the theatre program AND a collection of old spectacles at the museum. When all were displayed together, another museum visitor volunteered to donate a pair of ancient long white "opera gloves." She thought the theatre program and opera glasses really "needed" the gloves.

"This type of a historical museum seems to offer a challenge to visitors as well as the staff," she explains. "The contributions from the public are an exciting part of the work."

Featured prominently in the annual Christmas display of old-fashioned toys and tree, is a beautiful china doll. With real hair, dainty cloth and and exquisite white clothes, she obviously was a cherished possession. "An elderly man came in with the doll and said he thought the Museum should

have it to share with the children of Fort Wayne. His wife had died recently and it had belonged to her since early childhood. He knew that it was at least 70 years old," said Mrs. Truitt.

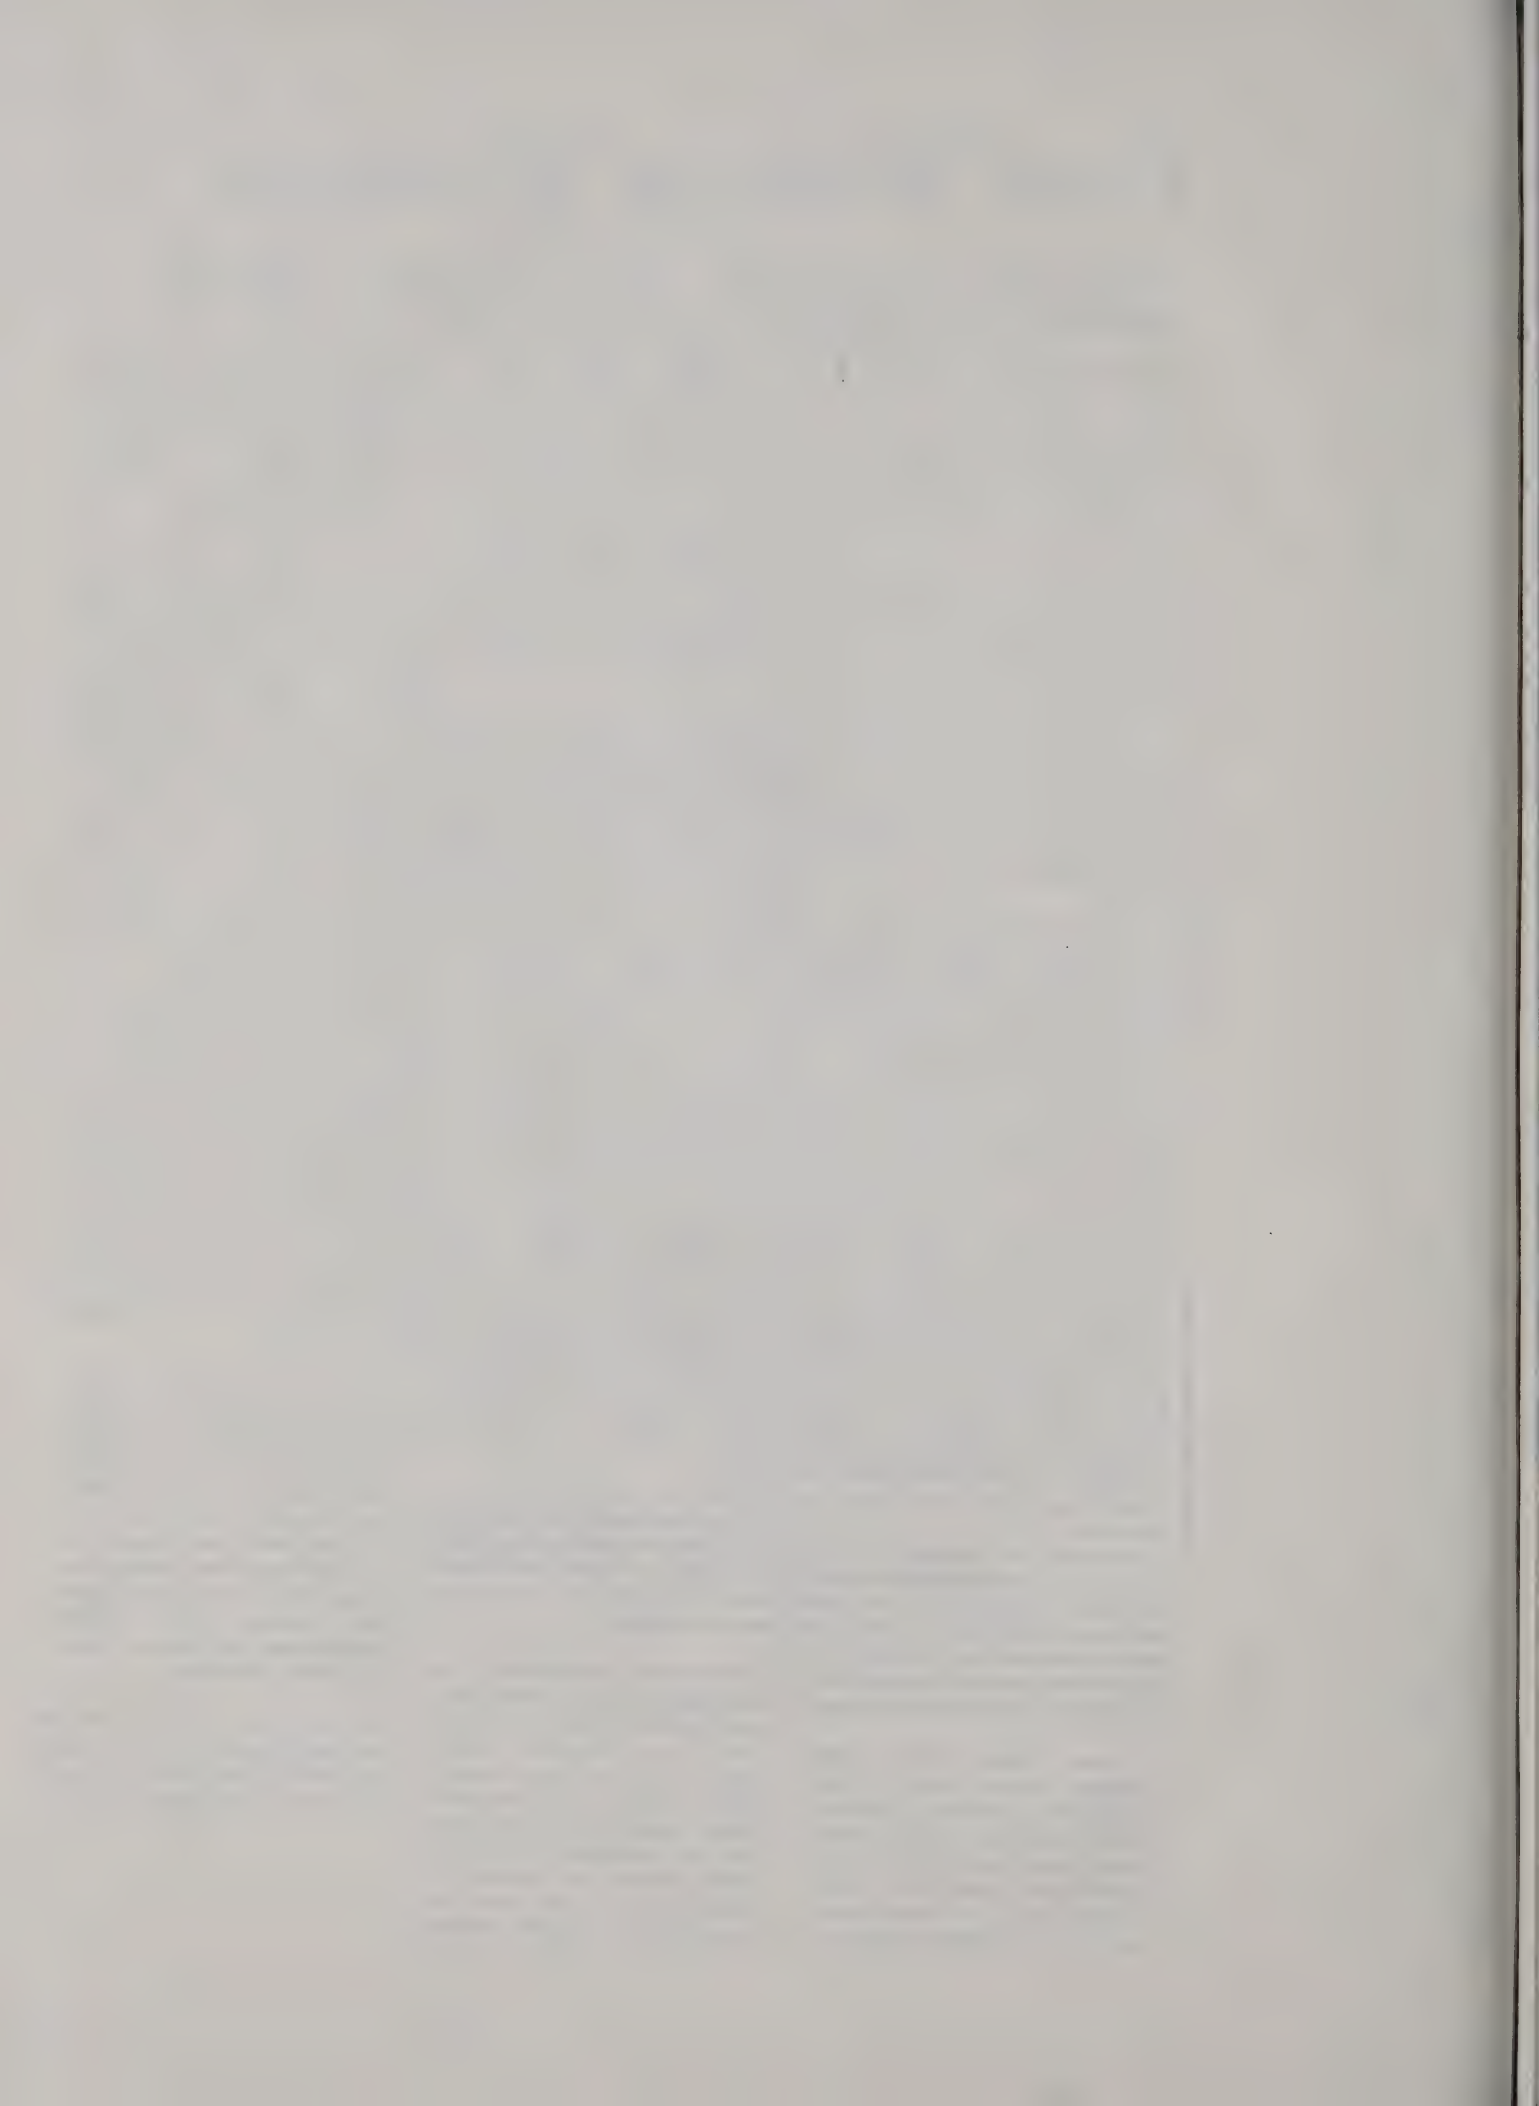

The Christmas display has become a museum tradition. Each year that the old toys are displayed, others are brought into the museum by people who have been reminded of something stashed away in a family attic. Many of the ornaments on the tree once decorated local Christmas trees, generations ago.

Sometimes a display calls forth all of Mrs. Truitt's special interests. She obviously isn't satisfied until everything in it is both historically correct and artistically appealing.

In the pioneer room, for instance, stands a display of a pioneer man and boy. When she first decided to display the clothing worn by Allen County pioneers in the early 1800's, Mrs. Truitt did a good bit of historical research in booklets published by the Public Library and Historical Society. Next she shopped for fabrics that closely resembled the rough homespun and linsey-woolsey of the pioneers. (The ones used are new "miracle" fibers, no less.)

As she fashioned the clothing, she decided the mannikins looked much too slick and modern to wear them. Utilizing her artistic skill, she "aged" them with oil paints. "By the time I got through with the de-glamorizing job, they looked like they wished they'd never come west to pioneer," she said with a laugh.

For a final touch she added tree branches from a park, and tiny stuffed songbirds. A huge,

grim looking axe completed the "wilderness" theme.

For women interested in historical museum careers, Mrs. Truitt advises a broad general background of interests and hobbies in related fields. You can study endlessly in art, history, antiques and such subjects without ever quite catching up with all you'd like to know for a historical museum job. However, she knows of very little in specific courses designed to train museum historians.

"You have to find the job and the job find you," she adds. She calls her own exciting career "a wonderful accident."
